Planning a Nursing Scavenger Hunt

Defining Goals and Objectives

Before designing the scavenger hunt, clarify what you aim to achieve. Are you focusing on orientation for new students? Reinforcing safety protocols? Or fostering teamwork among staff? Clear objectives will guide the activity's structure, content, and assessment methods.

Designing the Clues and Tasks

The core of a successful scavenger hunt lies in well-crafted clues and tasks. They should be challenging yet achievable, relevant, and aligned with learning objectives. Incorporate different types of tasks, such as:

1. Finding specific equipment or supplies (e.g., a stethoscope, gloves, or IV pole)
2. Answering quiz questions related to patient care or hospital policies
3. Performing a mock procedure (e.g., hand hygiene, vital signs measurement)
4. Identifying location-specific features (e.g., emergency exits, nurse stations)
5. Completing safety checks or documentation tasks

Creating a Map or Checklist

Providing participants with a map or checklist helps organize the activity. Maps can visually guide teams to different stations or locations, while checklists ensure all tasks are completed and tracked efficiently.

Setting Rules and Time Limits

Establish clear rules regarding teamwork, safety, and the scope of tasks. Decide on a time limit to maintain engagement and challenge participants appropriately. Consider incorporating penalties for unsafe behavior or incomplete tasks to reinforce professionalism and safety.

Implementing the Nursing Scavenger Hunt

Preparation Phase

1. Coordinate with hospital administration, educators, or management to gain access and support.
2. Prepare all materials, including clues, checklists, maps, and any necessary equipment.
