Key Risk Management Techniques

1. **Stop-Loss Orders:** Predetermined price levels where you exit a losing trade.

Maintaining emotional control is vital; impulsive decisions can lead to significant losses. Techniques include:

1. Using trading plans with clear entry and exit rules.
2. Setting daily loss limits to prevent emotional trading after setbacks.

volatility. - Diversification: Avoid over-concentration in a single asset or sector. - Risk-Reward Ratio: Aim for trades where potential reward exceeds risk, e.g., 2:1 or higher.

Managing Emotions During Drawdowns

- Recognize the psychological impact of losses. - Stick to your trading plan. - Reassess strategies after significant drawdowns. - Avoid revenge trading or increasing risk to recover losses.

Developing a Trading Routine

Daily Preparation

- Review economic calendar for scheduled reports or events. - Analyze overnight market developments. - Scan for setups aligning with your strategy.

During Trading Hours
