As part of A2 Sociology, understanding the multifaceted nature of religion involves exploring its functions, forms, theories, and the role it plays in contemporary society. This revision piece aims to provide a comprehensive overview of religion, covering classical and contemporary perspectives, key concepts, and debates relevant to the A2 Sociology curriculum.

Defining Religion in Sociological Terms

Religion, in sociological terms, can be broadly defined as a system of beliefs, practices, and symbols that relate to the sacred – things set apart and forbidden – and that unite believers into a moral community called a church or religious community. Sociologists focus on the social functions of religion, its role in social cohesion, social control, and identity formation, rather than the theological truth claims. Key features include:

- Beliefs: Ideas held to be true about the sacred, divine, or supernatural.
- Practices: Rituals and ceremonies performed by adherents.
- Symbols: Objects, gestures, or words that have specific meanings within the religion.
- Sacred vs. Profane: Distinction between holy and everyday elements.
- Community: The group of believers who share a common faith.

- Core Ideas:
 - Religion as an "opium of the people" that pacifies the oppressed by promising rewards in the afterlife.
 - It serves the interests of the ruling class by maintaining social inequalities.
 - Religion diverts attention from material conditions and social injustice.
