Ideal Placement Tips

Subwoofer Placement Considerations

- Avoid placing the SW10 directly against furniture or curtains, which can muffle sound. - Use the phase switch during setup to fine-tune bass performance based on placement. - If possible, experiment with different positions to find the optimal balance between deep bass and clarity.

Connecting your subwoofer correctly is vital for optimal sound. The SW10 offers multiple input options to suit your setup.

Types of Inputs

1. **LFE (Low-Frequency Effects) Input:** Connects directly to your AV receiver's subwoofer or dedicated LFE output for theater-quality bass.
2. **Line-Level Inputs:** Use these if your receiver does not have dedicated subwoofer outputs. Requires RCA cables.

Connection Steps

1. Turn off your AV receiver and subwoofer before making connections.
2. Connect the LFE or line-level output from your receiver to the corresponding input on the SW10 using an RCA cable.
